YEH FU AKA. MICHAEL FU

PROFILE

Hi, I am Michael, I was born in Taiwan in 1998, and is studying master of IT at Monash University. My IELTS test results are 6 / 6.5 / 8 / 8 (W / S / R / L). Apart from the school work, I like to learn computer stuff such as programming, photo, and video edit through youtube. I am a sports enthusiast, so I do several kinds of outdoor activities in my free time as well.

EXPERIENCE

START UP A COMPANY — 2017-2018

Two of my high school friends and I started up a company that aimed to provide decent sports products to customers. The first product we made is sports shampoo, we designed the formula and ask the factory to produce for us. I was responsible for social media marketing, so I created a fan page on Facebook then connected it to our online store which was rented from SHOPLINE. I've learned photo and video edit, advertising analysis with Facebook, and how e-commerce works.

FINANCIAL ANALYST IN AI AUSTRALIA — SEP. - NOV. 2020

I worked for AI Australia as a financial analyst, during the internship, I was supposed to generate different types of financial insights report for AI-Consulting team using data analysis skill such as ML, DL. Also I helped the data analysis team on a project which is about using ML and python open-cv to develop an object detection software.
